Testing it out

- Use free tools out there, we use Wave
- Test with a screen-reader
- Which screen reader?

The basics

(common mistakes and how to resolve them)

Andrew Doyle and Billy Clackers @Invotra #IntranetNow

Deciding alt text

- Context of the image
- The level of detail
- When to have empty alt text

Formatting lists

- Use the lists provided in your web editor
- Don't use your own

Using your headings correctly

- They need to be logical
- Be careful with bold text

Don't obscure text with colour

- Colour contrast
- Small text vs large text
- Colour checker
